In the period of 28 May – 1 June in Bucharest, with the important participation of the GUM delegation, the 12th EURAMET General Assembly was held.

During the meeting, a number of decisions relevant for the European metrology were made. The project of European Metrology Networks with participation of GUM experts was approved. In addition, four members of the EURAMET Board of Directors were elected, as well as two new members of the Internal Audit Committee, including a representative of GUM, Dr Patrycja Ruśkowska. What is important, President of GUM gave an interesting presentation about changes in the Central Office of Measures, including building a new laboratory campus in Kielce city, which caused a lot of interest. During the meeting participants discussed about future collaboration with European Legal Metrology Organization WELMEC and listened to report of the work of the Technical Committees of EURAMET.
