Signing of a cooperation agreement between GUM and the All-Ukrainian State Research and Production Center for Standardization, Metrology, Certification and Consumer's Rights Protection.

20.08.2019. We are pleased to inform that the Central Office of Measures (GUM), by strengthening cooperation with institutions from Ukraine, which have metrology in its competence, signed a cooperation agreement with the All-Ukrainian State Research and Production Center for Standardization, Metrology, Certification and Consumer's Rights Protection (UKRCSM) from Kiev. The agreement will enable practical and mutually beneficial cooperation with UKRCSM, including mutual exchange of employees, calibration, testing of measuring instruments and sharing information on legal acts in the field of metrology.

The agreement is a real expression of closer cooperation between GUM and metrological institutions from other countries, especially from our geographical region.
